

OBJECTIVES

-- Increase your understanding of strategies for healthy eating and active living in all sectors of Tennessee. And learn specific strategies to address increasing physical activity and healthy eating.

-- Become knowledgeable of what individual case managers can do to "improve" and acknowledge the need for sensitive caring approach to bariatric and weight loss issues faced by a growing number of clients.

--Understand the impact of poverty and oppression on human life and what opportunities and challenges this can lead to. Working to learn methods of conflict resolution with in different groups

-- Learn strategies to negotiate working with the complex client.

--Understand vendor resources to help Case Managers work in conjunction with other Health Care Providers.

-- Gain better understanding of challenges facing the future of case management

The Case Management Society of America is a non-profit, multidisciplinary society of case management professionals. Our mission is to promote the individual and collective development of health care case management.
